Upgrade Paths

This topic lists the verified upgrade paths to 5.3.1 build 7359. Mitel always recommends validating your upgrade path in a staging environment prior to upgrading a production system.

- From version 5.2.3
- From version 5.2.4
- From version 5.3.0

Resolved issues

Reference (Priority)	Description
Issue with Extended Search Information (TK-194419)	
MTCS-22107 (Medium)	After upgrading Desktop application version 5.2.3, All the search results are no longer marked with "blue" text.
If pressing ENTER after entering activation code, Activate button in greyed out (TK-187727)	
MTCS-21967 (Medium)	If you press ENTER after entering the activation code in Desktop application, instead of logging in, a new activation code is sent and the Activate button is greyed out.
Numeric keys doesn't function on custom activity (TK-187729)	
MTCS-22033 (Low)	When setting the end time for a custom activity, it is only the arrows up and down that works as expected. If typing the end time with a keyboard, nothing happens.
Can't Call on Desktop Phone using call button in Group Log (TK-94928)	
MTCS-14644 (Low)	Making an outgoing call from Group call log, dials out only via Desktop application even if Desktop application's answerplace set to SIP Deskphone.
